Executive Summary and Background Information:

Z-20-26: This is a request by Keith Wiley, representing Southark Properties, LLC, owners, to rezone Lots 4-6, Block 4, Lots 1-6 and Lots 9-12, Block 5, South Texarkana Addition, located in the 2000-2100 block of South State Line Avenue and the 2100 block of Spruce Street from Agriculture to Single Family-3. These properties are mostly vacant lots with two of the lots having homes on them. Single family housing is proposed for these lots.

The adjacent zoning is Agriculture to the north, south and west and the City of Texarkana Arkansas to the east. The adjacent land use is residential.

The Future Land use map designated this property as “Rural Residential”.

The proposed use is the construction of small two-bedroom and three-bedroom single family homes on each lot. The lots in this area were platted with a 50’ width. The reason for rezoning is that Single Family-3 zoning allows 50’ wide lots. The
City of Texarkana, Texas

construction of new single family homes is a revitalization to this area located south of town. Therefore, staff recommends for approval of this request.

The applicant should also be aware that if this zoning change is approved, all other applicable city code/ordinance requirements must be met including but not limited to building codes, setbacks, subdivision, fire, parking, drainage, water and sewer prior to the issuance of building permits.

All notification and application requirements have been met to consider this request.

Executive Summary and Background Information:

Z-20-27: This is a request by Tier 413 Land Holdings, LLC, owner, and Daniel Nwaosuh, under contract to purchase, agent, to rezone a 4.61-acre tract of land being Block 16, Kenwood Park Addition, located at 601 Wade Lane from Single Family-2 to General Retail. This property is currently vacant land. The proposed use is a storage facility (mini warehouses) with RV/Boat storage.

The adjacent zoning is Single Family-2 to the north, south, and east and west. The adjacent land use are residences to the north, south, east, and vacant land to the west.

Since the surrounding area is Single Family-2 zoning and comprised of mostly residences, this rezoning would allow business zoning and a business use in a residential area. This would be considered “spot zoning”. Also, the Future Land Use Map designated this property as “Suburban Residential”. There have been several requests in the past for multi-family/duplex type uses on this property. These requests were strongly objected to by property owners in the area because of the narrow width
of Wade Lane and drainage issues in this area. Therefore, staff recommends for denial of this request.

A Specific Use Permit (S-733) is also being requested that would allow a mini-warehouse storage facility in General Retail zoning.

The applicant should also be aware that if this zoning change is approved, all other applicable city code/ordinance requirements must be met including but not limited to building codes, setbacks, subdivision, fire, parking, drainage, water and sewer prior to the issuance of building permits.

All notification and application requirements have been met to consider this request.
